

Sydinvest Global Value Equities EUR Acc

Fund Facts - 1. May 2024

Investment profile

The fund is actively managed and pursues an equal weight strategy and a value strategy. The strategy basically has two aims. Firstly, investments are made in shares traded at low prices, ie value shares. Secondly, all portfolio shares carry equal weight, which means that most of the investors' assets are invested in small and medium-size shares. We pursue an equal weight strategy and a value strategy because in a historical context inexpensive and small shares have proved to outperform the share market over time. The portfolio composition aims to reduce regional risk and sector risk relative to the fund's benchmark.
